Mini Carro

Key Features of Both Seats

For those who require a smaller car seat.

Suitable For ages 1 - 3 approx.

Both Mini Carro and Carrot II car seats are available with ISOFIX turntable or ISOFIX base

The ISOFIX turntable or base convert the Carrot and Mini Carro for integration into ISOFIX prepared vehicles. The turntable allows easy access to and from the car seat with the added confidence and security provided by the ISOFIX mounting standard.

Deep Bucket-Shaped Seat & Deep Backrest

The deep bucket-shaped seat, along with the large head pad holds the child securely and protects from sideways impact, while the deep backrest prevents the child from being thrown from the seat.

Impact Shield and 5 Point Belt

The large impact shield absorbs the shock of a collision while the 5 point-belt gives total body security and posture stability.

Support / Balance Pads

These pads hold the body snugly in place and can be placed anywhere on the seat to aid balance and stability.

Trunk supports and an abduction block are available to give additional support if required.

Range of Accessories

Both seats have a range of accessories which provide extra support and can be removed or replaced as the child grows.

Safety Standards

The Mini Carro meets European safety standard ECE R 44/03 and the Carrot II meets European safety standard ECE R 44/04

For a full list of accessory options please call us.

MINI CARRO ACCESSORIES

Cushion Table

Padded foot rest

Seat extension pad

Support Pad

Carrot II

A car seat which grows with your child, for ages 3-15 approx.

Height adjustable head rest

Body Balance Pads

Stabilizes the body against sideways sway, especially useful for those who have difficulty maintaining balance.

Features

The seat depth as well as the height of the back and neck rest can be increased, making the Carrot II suitable for a broad age group. The vast range of accessories also means it can be adapted to cater for individual needs. The seat cover is detachable for washing.

ACCESSORIES

TRIANGLE MAT
Gives greater hip flexion.

FOOT REST
Height adjustable footrest to support feet & aid stability.

TRUNK SUPPORTS
These supports give enhanced lateral stability.

POMMEL
Slots easily into the seat to abduct the legs.

EXTRA PADS
Provide correct seat extension for when the child is sitting with knees bent.

CUSHION TABLE
Supports the arms to stabilize the upper body. Easily attached / removed.
